RONALGROUP

# PLANBLUE & RONAL R60-BLUE THIS WHEEL MAKES AN IMPORTANT MARK

It is not enough that we have stood for efficient technology and uncompromising quality with our wheels for almost 50 years. At the RONAL GROUP we also want to do our bit – for us, for you, and for future generations. With PLANBLUE we are extending our vision for sustainable growth. PLANBLUE is an integrated approach adopted by the Group, which focuses on adherence to sustainability, as well as our environmental and social responsibilities to our customers, employees and the public.

The first major step in realizing the PLAN-BLUE concept, involves the RONAL R60-blue: The first automotive wheel designed and manufactured for sustainability over its entire

life cycle – from material provision and design development, to production, transport and disposal. With this innovation, the RONAL GROUP has launched a new green generation of wheels. Further information on our commitment to a more sustainable future can be found at:

[plan-blue.com](http://plan-blue.com)

## The characteristics of the RONAL R60-blue wheel:

- Made in Germany
- Manufactured using 100% green power
- Short transportation distances
- Weight reduction of up to 600 g per wheel
- Reduced fuel and energy consumption
- 20% lower CO<sub>2</sub> emissions<sup>1</sup>
- At least 3300 km CO<sub>2</sub> – neutral driving<sup>2</sup>
- 50% less solvent in the paint
- Regional disabled-workshops

<sup>1</sup> material production and the manufacturing process  
<sup>2</sup> with a mileage of 150000 km

# NEW PRODUCTS FROM RONAL AND SPEEDLINE CORSE

## RONAL R62

### TRENDY, PERSONALIZED, INNOVATIVE

Little touches of color add impact. The new RONAL R62 wheel lets YOU choose! This is the first wheel you can personalize with trendy design elements – it's simple!

#### The characteristics of the R62 wheel:

- Available with or without pre-fitted plastic design elements
- Design elements offered in red, blue or green
- Personalized retrofitting option
- Initially available in size 7.5x18 inch, with other applications featuring 17 and 19 inch versions planned
- Tried and tested to the RONAL quality standard
- ABE and TPMS approved

Without design elements

RONAL R62 shown with red design elements

## SPEEDLINE CORSE SL7 GLADIATORE

### SPORTY, POWERFUL, UNMISTAKABLE

In 2017, SPEEDLINE CORSE launched a new SUV wheel unlike any other – The SL7 Gladiator.

#### The characteristics of the SL7 wheel:

- Unmistakable, eye-catching design
- Lightweight, flow-forming technology
- Ferric Anthracite-matt, diamond cut finish
- Quality laser engraving, emphasizing the sporty look of the wheel
- Initially available in size 8.5x18 inch for Audi (Q3, Q5 and Q7), Mercedes (GLC, GLK and ML), BMW (X1 and X5), Porsche Cayenne, VW Touareg, Ford Kuga, Volvo XC, and models of Range Rover, Jeep, Lexus, Hyundai, etc.

## RONAL R61

### ELEGANT, MODERN, DYNAMIC

This wheel is more than just a wheel! The new RONAL R61 is impressive with its unmistakable, modern design.

#### The characteristics of the R61 wheel:

- Distinctive lines extending to the middle of the wheel
- Sporty, dynamic styling, available in 7.5x17 inch size, with 5-hole connection
- Offered in crystal silver matt or jetblack matt, diamond cut finishes

## CARBON REVOLUTION CR-9

# THE FIRST ONE-PIECE CARBON WHEEL

Throughout the world, the RONAL GROUP is known as a leading innovator. Together with the Australian company Carbon Revolution, we are proud to have launched Europe's first one-piece carbon wheel. The revolutionary, ultralight CR-9 Carbon Revolution wheel is currently only available in the aftermarket division of Switzerland and Great Britain. It is very impressive due to the lighter weight combined with maximum strength. The wheel weighs 40 to

50 percent less than a comparable aluminum wheel, which not only improves performance and driving quality, but also reduces fuel consumption. The CR-9 wheels are currently available in diameters of 19 and 20 inch, and in widths from 8.5 to 12 inches. They fit some of the world's fastest cars: Porsche 911, Porsche Boxster, Porsche Cayman, Audi R8, BMW 1M, BMW M3, BMW M4, Corvette Z06, Lamborghini Gallardo, McLaren MP4-12C and Nissan GT-R.

### The characteristics of the CARBON REVOLUTION CR-9:

- Easier steering and simple handling
- Optimum grip
- Improved performance
- Shorter braking distances
- Lower vehicle weight saves fuel
- Reduced driving noise

**New:** 19-inch Center-lock design for Porsche and available in 20 inch for Nissan GT-R. A special motorsports version is available for selected sports cars and use on racetracks.

## SPEEDLINE CORSE IN MOTORSPORTS

# SHARED SUCCESS

Over the past few years, SPEEDLINE CORSE wheels have won many events: 82 FIA World Championship titles in Formula 1, the World Rally Championship, the World Rallycross Championship, Super Touring and GT Racing. The RONAL GROUP depends on top performance. Just like the sports car suppliers within the international motorsports sector, special SPEEDLINE CORSE wheels are developed with the racetrack in mind.

Riga, Latvia

## MOTORSPORTS

## 24 HOUR RACE AT THE NÜRBURGRING 2016

# RONAL GROUP & PIRELLI – ALWAYS A STRONG TEAM

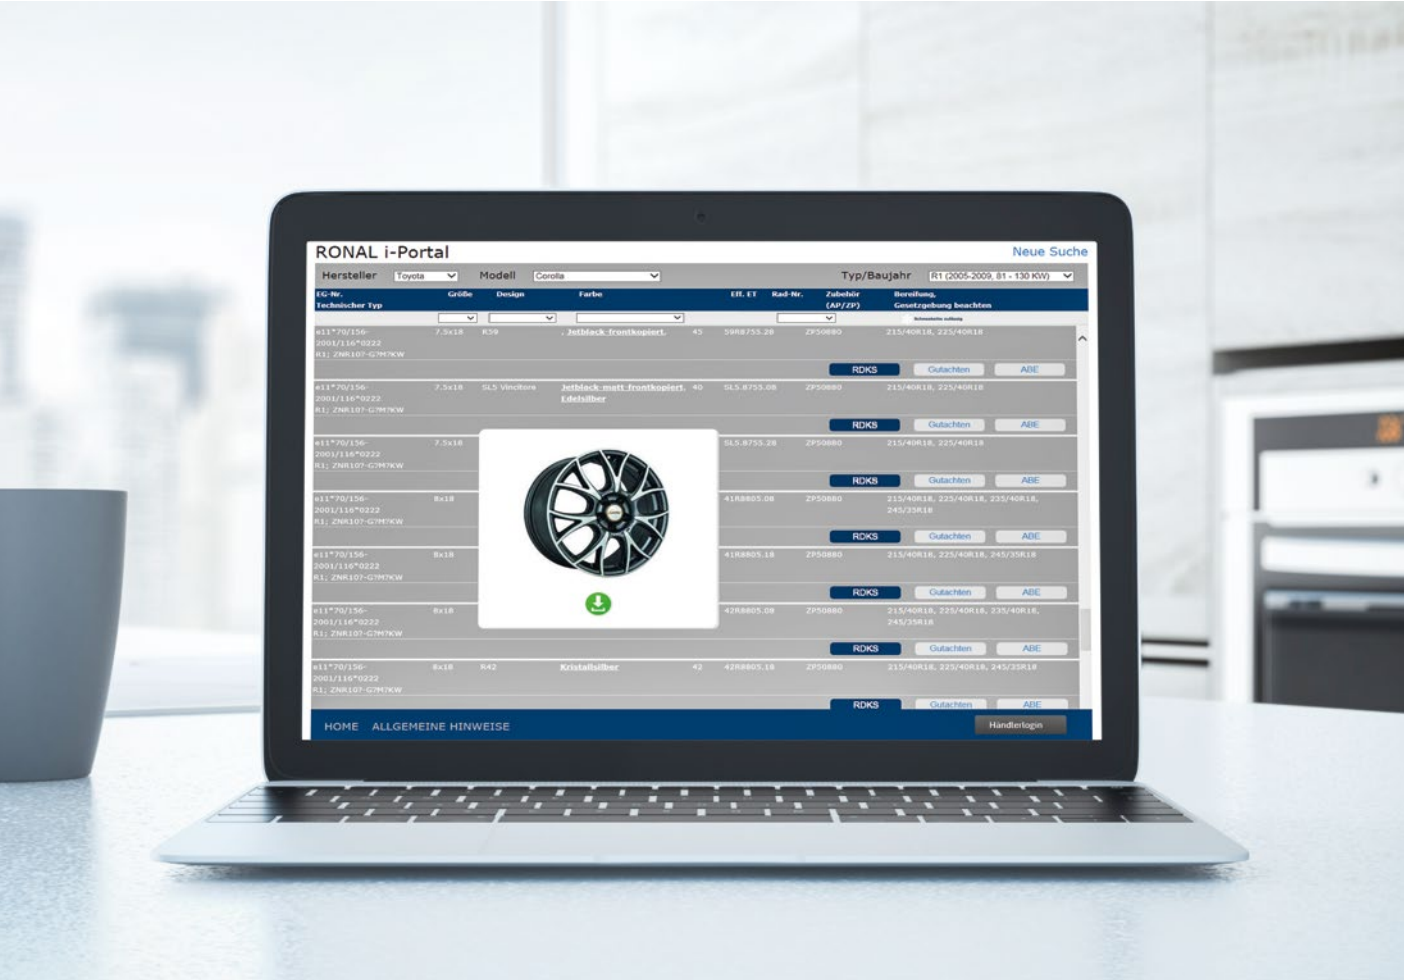

The RONAL GROUP and motorsports – the future possibilities! Today, more and more racing teams with SPEEDLINE CORSE wheels are leading the field in motorsports. One of the best examples was the 24-hour race, held on the legendary Nürburgring track in May 2016. The event took place before an enthusiastic audience of over 200,000 fans and was an exciting event to share, not just

with our partner Pirelli. These four action-packed days in the "Green Hell" were also a team event. Over 100 employees from RONAL GROUP and Pirelli found themselves in the action, all playing important roles assisting in the pit lanes at the exhibition areas, show trucks and even at the Wheel of Fortune, everyone had their hands full. There

was plenty to do! There was plenty to do! The 24 hours of racing were even more suspenseful since the race also fell prey to chaotic weather with rain and hail storms. Of the 158 racing cars set to leave the starting line, only 101 ranked at the finish. Pirelli's winning teams were in the SP8 and SP8T categories, with the BMW M3 and BMW 1 Series Coupé also competing on SPEEDLINE CORSE wheels.

WEBSHOP, CAR CONFIGURATOR, I-PORTAL  
**MAKING IT EASIER FOR YOU**

We have now made it very easy for our dealers to order any wheel they want from the RONAL and SPEEDLINE CORSE product lines. Visit the Showroom on our website, [ronal-wheels.com](http://ronal-wheels.com) to view all we have to offer. Use our online shop for quick information and easy ordering!

**The dealer webshop**

- Fast, clear navigation
- Available 24/7 – 365 days a year
- Restricted dealer area
- Quick searches using vehicle/wheel info (configurator) and/or various filters
- Separate accessories area
- Order history and shopping cart
- Availability display
- Download expert reports and ABE
- Individual shop settings
- Create multiple accounts for additional employees
- Contact and complaint forms

**Pick your wheel using the 3D car configurator**

Our 3D car configurator will help you select new wheels. Just enter a few details and you'll see all the available wheels approved for your customer's vehicle. Almost all vehicles appear in 3D, displayed in color and viewed with or without a lowered chassis. You will also see all of the relevant information pertaining to that wheel and all possible wheel/tire combinations. It could not be easier to choose the wheel you want!

**Searching? Found! In the i-Portal**

The RONAL GROUP i-Portal is an indispensable tool for better customer care and simpler wheel selection. Information and research tools are just one quick click away. Search for expert reports using the wheel number, vehicle data, or KBA number. Quick search using the manufacturer key number or key type. Download expert and ABE reports and wheels pictures. Additionally, several filter functions will make your search even easier. This innovative data management system will make it quick and easy to check the availability of all the wheels offered by RONAL and SPEEDLINE CORSE for all your customer vehicles!

**SPEEDLINE TRUCK SPEEDS AHEAD WITH THE SLT 3598**

Thanks to its outstanding product features, the new SLT 3598 SPEEDLINE TRUCK wheel is bound to impress. This unique wheel, designed for mega-trailers with high volume and weight requirements, is available in 19.5x14 inch, with an offset of 120 mm. Offering a load capacity of 4 500 kg; this 10-hole wheel is a market leader. Available with a 26 or 32 mm hole, both sizes have a high-brilliance, diamond surface and will definitely draw attention. This wheel also offers special corrosion protection at the valve. Weighing in at only 22.9 kg, it is

almost 700 g lighter than other aluminum wheels, thereby further enhancing the overall quality. Therefore, it is not surprising that this wheel was also a highlight at the September 2016 IAA Commercial Vehicles Fair in Hanover, Germany. At the SPEEDLINE TRUCK exhibit, a number of industrial visitors, trading partners and end users from all across the world, were able to explore the company's focus and dedication to this additional market, and admire the extensive products available.

The low-weight and high performance, combined with a sporty, dynamic design, make this an excellent option for motor racing. Racing trucks also compete on wheels manufactured by SPEEDLINE TRUCK. The company is one of the main sponsors of the tankpool24 racing team, which got off to a successful start in 2016 with two-time (2014/2015) European champion Norbert Kiss, at the FIA European Truck Racing Championship.

**THE NEW RONLOG LOGISTICS CENTER**

Construction of the new RONLOG Logistics Center is now completed at RONAL GROUP's German location in Forst. Not far from Karlsruhe, the site is more than 56 000 square meters. This central warehouse is for dealer brands and OEM replacement demands, and guarantees faster, more efficient product shipment – to virtually every country in Europe. The primary benefit is direct access to all of our wheels in one, centralized storage facility. The RONLOG warehouse has capacity for 300 000 aftermarket wheels, and offers digital inventory management, IT links to transportation partners, an automatic packaging system and shipment capacities between 1 and 1.5 million wheels a year.

## DEALER WEBSHOP
